

The drawing shows a vertical pipe assembly. On the left, a vertical pipe is shown with a flange at the top. Two lines extend downwards from the flange, forming a support structure. To the right of the pipe, there is a rectangular frame structure with four horizontal and four vertical members. The frame is supported by two diagonal lines extending downwards. The drawing includes two dimension lines on the left side, one labeled **203 and the other labeled *194.

**203

*194
