

The image contains two technical drawings of a lamp fixture. The left drawing is a front view showing a vertical pole with a circular light fixture in the middle and a rectangular canopy at the top. A dimension line on the left indicates a height of 248 units. A dimension line at the bottom indicates a diameter of 22 units. The right drawing is a side view showing the profile of the fixture, including the canopy, the light fixture, and the mounting hardware on the pole.
